2015

Style. Quality. Simplicity.

Discover a world of flooring with an attractive **style** and **quality** that lasts. **Simple** to install.

Choose your style and enjoy the ease of living.

Style.

Different people, different tastes, different styles. We offer you an extensive range of decors, finishes and structures because your home reflects your personality.

Quality.

Buying a Balterio laminate floor is a long-term investment. We offer peace of mind because we believe in combining high quality materials with the best craftsmanship, enabling us to offer a lifetime (limited to 33 years) warranty on certain collections.

Simplicity.

Innovative installation systems make our laminate flooring easy to install. And with your 'ease of use' in mind, we've minimised the maintenance required. All floors are scratch, moisture and stain resistant*.

Enjoy with Balterio a **quality** floor that lasts a lifetime.

Buying a Balterio laminate floor is a long-term investment. We offer peace of mind because we believe in combining high quality materials with the best craftsmanship, enabling us to offer a lifetime (limited to 33 years) warranty on certain collections.

We care about your **ease of living.**

TO OFFER YOU PEACE OF MIND, ALL OUR LAMINATE FLOORS ARE:

Wear-resistant

Thanks to a wear resistant top layer in combination with the high density core HDF board.

Stain-resistant

With a Balterio floor, stains need not be a disaster. Even magic markers, lipstick or nail varnish can easily be removed with a drop of acetone on a clean cloth.

Moisture-resistant

Balterio produces the HDF core boards itself and applies the highest standards regarding swelling and expansion.

Impact-resistant

The floors can resist sudden impacts from high heels, falling objects and the pressure marks caused by furniture legs.

Scratch-resistant

A Balterio laminate floor can easily withstand scratches from office chairs with soft rubber wheels. However, to keep sand from scratching your floor, it is best to use a doormat.

Slip-resistant

To keep you from falling, our engineers have worked hard to improve slip resistance. We score 45 % better than the norm (EN 13329).

Stable & strong

The high quality core boards limit the effect of relative humidity on your Balterio laminate floor, in comparison with solid wood or chipboard.

Cigarette proof

A fallen burning cigarette that is for a few seconds on your Balterio laminate floor won't leave the slightest trace.

100% healthy

Balterio laminate is not glued. The different layers are compressed to form a stable plank. No harmful products are used.

Compatible with underfloor heating

Compatible with underfloor heating and, under strict conditions, water-based floor cooling.

Easy to maintain

A light mopping or a cleaning system with moist towels is more than enough to clean your Balterio laminate in a minimum of time and to keep its lovely appearance for years.

www.balterio.com

Questions & Answers

We care about the environment.

PEFC label

All laminate floors carry the PEFC label, the warranty for responsible forestry management and preservation. It ensures that each time a tree is felled, a new one is planted.

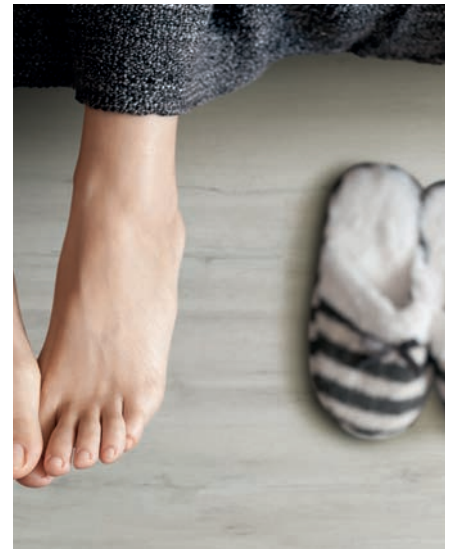

100% safe

A smart use of high quality raw materials ensures a safe installation: Balterio laminate floors contain 10 times less formaldehyde than the required norm. As a result Balterio laminate floors bear the Blue Angel eco-label and A+.

More info:
www.balteriosustainability.com

Balterio laminate is developed and **PRODUCED IN BELGIUM** from where it is distributed across the whole world.

structures

Discover the *different styles and finishes.*
 Balterio offers you a wide choice from modern patterns
 to true-to-nature woodgrain structures.

3D Wood Effect

3D Wood Effect emphasizes the natural depth of the wood grains by varying in gloss level from mat to satin and silk.

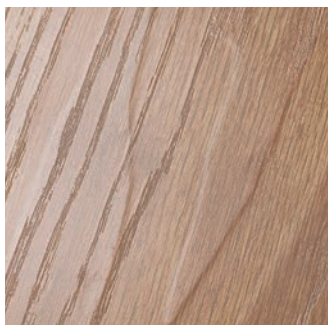

Chromezone®

The exclusive Chromezone® technology enhances the True to nature® touch by giving the wood grains a vivid and radiant luster on a mat surface.

True to nature®

The embossed in register process gives you the feel of a solid wood floor, as the structure accentuates the natural wood grains.

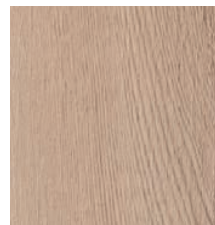

Handscraped®

The handscraped finish gives the planks a real craftsman's look, as if every plank was made by hand.

Saw Cut Raw

Planks with Saw Cut Raw effect show a rough, deep and authentic surface structure of sawn wooden planks. This laminate looks and feels like used wood marked with saw cuts.

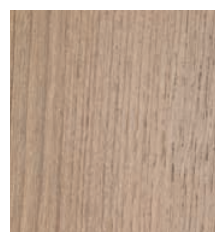

Soft touch mat

Brushed structure

Woodgrain structure

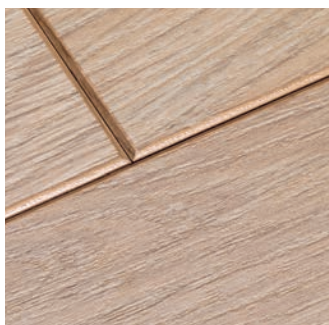

Fine woodgrain structure

True tile structure

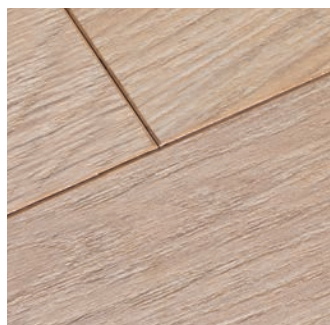

V-grooves

Discover our natural looking *V-grooves*.
The decor of the milled bevelled edge perfectly matches the decor of the plank.

V-groove

With the V-groove on the sides of the plank, your floor is hardly distinguishable from solid parquet floors.

Micro V-groove

Some collections have a subtle micro V-groove on the sides, for a refined and truly elegant parquet effect.

Random V-groove

Milled to show the irregularities of real wood, the random V-groove gives your floor more character.

plank sizes

The Balterio planks come in a *variety of sizes*.

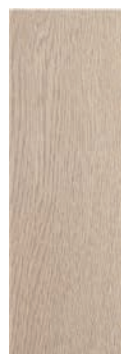

1. Standard planks collections Fortissimo*, Magnitude, Tradition Sapphire, Tradition Sculpture, Tradition Elegant, Tradition Quattro, Quattro Eight, Quattro Vintage*, Optimum, Dolce** & Senator **2. easy to install

The Balterio click systems make the installation of our floors true *simplicity*.

With the Balterio click systems it is extremely easy to install laminate. Roll your laminate floor planks into each other, allow the planks to fall into each other or just push them together. Whether you choose ClickXpress®, DropXpress® or PressXpress®, each system guarantees a strong and seamless transition.

View the installation videos
at www.balterio.com

A proper installation in combination with the right maintenance instructions guarantees many years of carefree enjoyment. Balterio offers a lifetime warranty (limited to 33 years) on the integrity of the (click) connection between the floor panels, on condition that they have been installed with the Balterio subfloors in this catalogue.

ClickXpress® ensures a quick installation.

This rotation system makes it easy to roll the panels together with a sturdy, seamless floor as a result. When moving house or renovating you can take the laminate out and roll them back together easily. Sturdy, reliable, and 25 % faster installation time.

SCAN FOR
MORE INFO

With DropXpress® everything falls perfectly together.

On the short side of the Stretto planks Balterio introduces the DropXpress® (DXP) installation system. From now on the laminate planks simply fall into each other on the short side. The planks join together seamlessly thanks to the U-profile.

SCAN FOR
MORE INFO

Simply press the planks together with PressXpress®.

The PressXpress® (PXP) fold-down installation system is available in the Fortissimo and Quattro Vintage collections. The clip* inside the plank ensures an immediate locking of the short sides resulting in a seamless and strong joint. Now all you have to do is 'press' the flooring boards into place end to end.

** registered design*

subfloors

A **subfloor** is indispensable before installing a laminate floor and guarantees a longer life.

Each subfloor has different functions:

- ✓ it levels the floor,
- ✓ has a sound-insulating effect,
- ✓ functions as a damp screen,
- ✓ and conducts heat.

Comfort-Sound BASE

The lightweight subfloor to mute transmission sound.

Comfort-Sound PLUS

The lightweight subfloor that levels the larger irregularities in the floor surface and is ideally used for rooms with a lot of traffic.

Comfort-Sound PRO

The heavyweight subfloor that strongly dampens walking sound and the perfect subfloor for rooms with underfloor heating (and cooling).

MOISTURE-RESISTANT	*****	*****	*****
LEVELLING	*****	*****	*****
DAMPENS TRANSMISSION SOUND	*****	***	****
DAMPENS WALKING SOUND	***	****	*****

THICKNESS	2,2 MM	2,5 MM	2,6 MM
DIMENSIONS	1,2 M X 10 M = 12 M ²	1 M X 12 M = 12 M ²	1 M X 6 M = 6 M ²

- ✓ All Balterio subfloors have an **integrated damp screen** that offers the best protection against rising damp.
- ✓ The imprint makes it easy to cut Balterio subfloors around obstacles.
- ✓ Seal all joints with **Balterio Comfort Alu Tape** for firm joining between the different subfloor parts and between the subfloor and the wall.
